Pittsburg's Club Play All Around the Giants.

CHICAGO BEATEN BY BOSTON.

Clarkson's Curves Prevent Anson's Team from Making More Than One Hit.

The Brooklyn Score Another Victory Over the Clevelanders Cincinnati Win Three Straight in Philadelphia—Only One Association Game Played—The Eastern Association Playing Good Ball.

New York, June 11.—Pittsburg has checked New York's victorious career. Not only did O'Neill's stars win, but they literally wiped up the ground with the Giants.

They gauged John Ewing's curves in the very first inning and fell upon them mercilessly. They never stopped hitting all through the game. Unfortunately for the Giants, Old Man Galvin pitched like a cyclone.

It mattered not whether he sent in an up curve or a down twist; the sphere left his hand with such speed that the long wais of the Giants seemed hypnotized.

Anson's Curve Shut Out.

Boston, June 11.—The Bostonians trimmed Eutawson of Chicago in fine shape. They pounded him for 18 clean hits, and with the assistance of arrows, turned 13 of their hits into runs, while the visitors couldn't get into Clarkson's little hit, their six hits being scattered, and they were shut out with nine goose eggs. The fielding of each side was brilliant. Laska made his first appearance with the Beaneaters.

ONE MORE JURY BRIBER.

Detective O'Malley's Partner Found Guilty as Charged.

NEW ORLEANS, June 11.—The trials of the jury bribers were continued in the Criminal District Court before Judge Baker. Great interest was attached to the proceedings, as it was understood that Detective O'Malley and McCrystal were to be tried. A large crowd, therefore, filled the courtroom.

After the customary business of the court had been dispatched, O'Malley and McCrystal were called. District Attorney Leuzouber asked the court for a severance of the two accused, as the State proposed to put McCrystal on trial first. His motion was granted, and O'Malley was ordered to step aside.

The empaneling of the jury was soon completed. Tales Juror McCabe was the chief witness for the State. He testified positively that McCrystal had offered him \$500 if he would work on a mistrial or acquittal if he got on the Hennessy jury. He refused the offer.

McCrystal's confession to the District Attorney was then offered in testimony, but the judge promptly ruled against its admissibility.

After some further testimony the case was given to the jury. They were gone but a few minutes, when they returned with a verdict of guilty as charged.

DROPPED DEAD IN HIS BARN.

A Well-Known Clergyman Stricken Down With Heart Disease.

BOWLINGTON, N. J., June 11.—At 8 a. m. the Rev. William C. Bowen, president of the Board of Trustees of the College of the Holy Cross, was found dead in his barn on the college grounds.

He had remained out in the barn so long that one of his daughters wondered what kept him and went out to call him. Receiving no response she entered the barn. Her father lay dead upon the floor near a favorite Alderney cow.

He had been stricken with heart disease and dropped dead as he was attempting to milk the cow.

Prof. Bowen was born 59 years ago at Berkeley, N. Y. For the past 15 years he has been president and owner of the college. He was well known in the Methodist-Episcopal Conference in New York and New Jersey.

TWO LEADERS CONVICTED.

McSloy and Dimson Found Guilty for Rioting and Conspiracy.

UNIONTOWN, Pa., June 11.—The jury in the case of John McSloy, Mike Dimson and 25 other strikers for conspiracy and riot at the Frick Company's Leasener No. 3 Works, found McSloy and Dimson guilty and acquitted the others.

The case of conspiracy, riot, etc., against John R. Rao, Peter Wise and others was taken up, and it will take two days to decide it. The operators seem to have other cases well worked up against the leaders in the strike, and are determined to have them in the penitentiary if possible.

Before the King left Monza it is understood that he was visited by an agent of the Kaiser, direct from Berlin, the bearer of a message from the German Emperor. Since Humbert's visit to Rome, there has been renewed activity at Spezia, and the vessels out of commission are being overhauled.

A MOB GIVES BATTLE

Police Fire Into a Crowd of Strikers at Grand Rapids.

SEVERAL PERSONS WOUNDED.

The Fight Raged Half an Hour When the Mob Broke and Ran.

Several of the Police Badly Bruised—The Station Houses Filled With Prisoners and Serious Trouble Feared—The Local Militia in Sympathy With the Strikers—Extra Police Sworn In.

GRAND RAPIDS, Mich., June 11.—Another big riot occurred during the morning, and it was the most serious that has yet taken place in the strike of the street car employes.

The police learned at midnight that the strikers had held a secret meeting and contemplated action. A number of strikers were seen going north and a squad of police followed. The strikers hid behind an embankment, and the police hid near by and waited an hour. The strikers sent out two scouts to reconnoitre, and they were captured by the police.

At 3:30 the strikers moved quietly toward the wheel pits, and, as it has since been learned, with the intention to blow up the pits with dynamite. The police charged and met with a volley from the strikers and with stones. The police returned the fire, and from the cries heard, it is believed that several members of the mob were wounded.

A pitched battle ensued, several of the police being roughly handled. Detective Smith's head was cut open, but he was not fatally injured. The police fired again and half the mob fled, while a hundred remained behind to have it out with the police, who fought desperately and captured 13 of the strikers, several of whom have been identified as belonging to the union.

At noon it was rumored that one man of the mob was dying and several more wounded, but this cannot be verified, as their whereabouts cannot be learned.

Nearly half the members of the militia belong to labor unions, and the regular army at Fort Wayne has been called upon, so say the officers.

The police station is filled with prisoners, who will be arraigned under the State law. About 250 specials will be called in, and 1000 strikers are likely to occur.

We are a patient people—the ox is nowhere in comparison.

We buy lamp-chimneys by the dozen; they go on snapping and popping and flying in pieces; and we go on buying the very same chimneys year after year.

Our dealer is willing to sell us a chimney a week for every lamp we burn—a hundred or more a year—and we plow for him, pay him for goading us.

"Macbeth's 'pearl top' and 'pearl glass' do not break from heat; they are made of tough glass.

As likely as not our dealer would rather his chimneys would break; 'it's good for the business,' says he. He buys the brittlest ones he can get.
